Welcome back!

The district library media center with teacher center services was a busy place during the summer with educators from many schools preparing for the year ahead! In the picture above, a few of the staff from the YMCA are working in the equipment area to prepare instructional lessons and materials to increase student achievement.

Dickinson State University students with their instructor, Rita Charlebois, are using resources, preparing lessons, and working on curriculum, instruction, assessment, collaboration, reflection. The teacher center and library staff are happy to provide educational services.
